Putting the World's Vulnerable People on the Map

2

Select an area to map

a. Go to the task manage and navigate to a task: http://tasks.hotosm.org

b. Don't see your username in the top-right corner? Click "Log in to OpenStreetMap" and follow the prompts.

c. To get started, click on a square on the map that is translucent, or not filled in with a color.

d. Click the orange "Start Mapping".

e. Select " iD Editor" and "START EDITOR".

3

Map the area

a. You will be tracing buildings and roads within the fuschia square.

b. To add a building: click on the "Area" button and trace the building outline. Double-click to finish.

c. To classify the area: on the left side of the screen, click "Building", then scroll down and click "Building" again. The building you traced will turn red.

d. To add a road: click the "Line" button and trace the road. Make sure it connects to other intersecting roads.

e. To classify the line: on the left side of the screen, click "Road", then a subcategory.

4

Save your work

a. Click the "Save" button at the top of the map area.

b. On the left side of the screen, click "Save" again to confirm.

That's it!

Thanks for your help. Your edits will be part of the map, and available for anyone to view, edit, and use.
